**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This is a tall group of two story row houses built as one structure. Each house is three bays square with two story, two bay square wings built in a double "UU" shape with balconies on the ends. The front section metal roof is flat and slopes slightly to the rear. Wing roofs are metal shed types. Various small chimneys dot the roof-line. All brickwork is common bond with the front facade painted. Doorways occupy the first, sixth, seventh, and twelfth bays and contains round arched enclosures with double doors and overlights. 241 has the original raised panel wooden doors while the others have been altered to glass panels. These are crowned by three row brick header round arches. The first floor front windows are alternating double and triple sets of 1/1 sash with wide mullions decorated with fluted panels and roundels. Arches are similar to those of the doorways. All front second floor windows have 1/1 sash with segmental brick arches and incised Victorian trim beneath. Rear and side windows are 2/2 sash with two row header segmental arches and wood sills. All rear doors have simple overlights. A simple cornice fronts the roofline with closely spaced dentils carved with roundels. Three wooden panels with incised designs adorn the top of each house above the windows. The structure is built high with six steps of concrete porches leading to the first floor level. Square basement windows and front basement entrances, both capped by two row header segmental arches, lie beneath the front windows. Paving is of herringbone design brick.
